## **LAUNCH OF A MARINE PACKAGE FOR THE OFFSHORE RENEWABLE ENERGY SECTOR**

Chaucer Syndicate 1084 is pleased to announce the launch of a new Marine package underwritten by Coastal Marine Services, a UK marine insurance underwriting agency. The new program will provide a bespoke product to owners/operators of vessels up to 5,000 GT who are involved in servicing the Offshore Renewable Energy Sector. It will provide coverage for Hull and Machinery, Protection and Indemnity, Cargo, Engineering and Maintenance either on a package basis or for individual coverages

Chaucer and Coastal Marine Services already collaborate on a portfolio of Marine coverages for smaller vessel owners through a Lloyd's coverholder agreement. This new facility has the ability to add the additional coverages and will provide a comprehensive solution to the needs of vessel owners operating in the Offshore Renewable Energy sector.

The product will be launched at the Seaworks Exhibition being held in Southampton between the 22<sup>nd</sup> and 24<sup>th</sup> May, and where we expect interest from across the ship owner sector, and which will be well represented both as exhibitors and visitors.

David Tiney, Director Coastal Marine Services commented:

*"We are excited by the prospect of this new development in our partnership with Syndicate 1084. Chaucer is a leading market in both Energy and Marine business and we delighted to bring the two areas into a single specialist program. We believe that our offshore renewable package represents excellent coverage and value for clients".*

Andrew Voke Head of Production for Chaucer added:

*"There is significant development underway in the Marine Offshore Energy sector and we are confident that aligning our strengths with Coastal will be a success."*
